

March 7 2025

Attendees:

Ashley, Ben C, Ben D, Spencer, Steven, Braden, Adam

Goals

- discuss tasks completed thus far

Notes:

Meeting started with each member discussing what it is that they have been working on. Ben C mentioned he is working on setting up the blob storage on azure, and he is working on setting up up the shopping cart and the checkout is embedded with the shopping cart page and the category pages. Adam is working on finishing the fetching of items from the database. Ben D mentioned he has finished all his tasks and updated the item code. Braden is working on the item listing page. Spencer is working on the dashboard and get it to work with backend components. Steven said he has fixed most of the errors he was getting with his testing and is trying to fix the last couple. Ashley presented some designs she worked on.

The team also discussed the sprint and what we should be working on for the next sprint, and reviewed the Jira board. The team also discussed the analytics we will be including in the store owner dashboard and how we will be tracking everything in the database.
