

# Jan 22 2025

## Attendees

Adam, Ashley, Ben C, Braden, Steven, Spencer

- Ben D did not attend
- Spencer joined late

## Goals

- discuss how everyone's tasks are going

## Notes

Discussed TA feedback from the release planning report, with the group ultimately deciding that we should be splitting our 3 sprints into 6 for each planned sprint we split them into 2, this would mean that we are in the middle of our first sprint so we had to readjust what we will be doing in each sprint, Since we decided this now we chose to make sure we include three stories for this sprint, and then we can do more in the next sprint as it was too late into this one to do more. We decided we wanted the landing page, the login page and the see items functionality done for the first sprint. An initial design for the landing page of the application was presented by Ashley, with the group agreeing with it going forward.

## Next Meeting:

- discuss how tasks are going
