

jan 29 2025

Attendees:

Ashley, Adam, Spencer, Steven, Braden, Ben D, Ben C

Goals:

- Discuss progress towards the end of our sprint

Notes:

Meeting began with a discussion of everyone going through their tasks and presenting what it is that they have accomplished so far. Ben D requested help / clarified on how to handle certain objects, and a discussion on subcategories followed. Further discussed the database and a tutorial on how it works by Ben C followed, clarified that categories have sub categories , and every item belongs to a category. Steven was assigned to do testing- ie write a script to run calls, making sure register information is valid etc. This was followed up with everyone discussing what it is that they are working on going forward and a discussion on the tables in the database.
