

April 14 2025

Attendees:

Ben C, Ashley, Adam, Braden, Steven, Spencer

- Ben D not able to attend

Goals:

- Discuss tasks completed over the weekend

Notes:

Meeting began with a discussion on the work that was done over the weekend. Braden mentioned he is working on getting banners working, however he is running into problems with the image resizing. Mentioned he will be continuing to work and fix the problem. Ben C mentioned a new endpoint in the backend for orders. It will take data from the frontend send to the backend with the list of products(items) that the customer has checked out then it will send this information to the backend and populate the correct tables and output an order number. Spencer mentioned that he is working on his merge issues in his own branch, and a controller for storage. Many members that they were very busy studying for exams but will be working more diligently this week to work towards the final presentations and report.
