

April 16 2025

Attendees:

Ashley, Spencer, Adam, Ben C,

- Steven, Braden, Ben D unable to make the meeting

Goals:

Discuss progress made so far

Notes:

Meeting began with a discussion on what each of the members were working on. Spencer mentioned he is working on the store creation / builder pages for a store owner. He mentioned that he fixed his merge conflicts and is working towards finishing the store builder. Spencer also mentioned he is testing the backend to ensure that it is communicating properly with the frontend. Adam discussed the tasks that he is working on, discussed that he is working on the ability to add images to a product listing. Discussed how to approach with azure. Adam also mentioned what he will be working on going forward the creating an item page, reviews table for the reviews, also discussed how we were planning on implementing the analytics so he can move forward with working on it and making the graphs that we want, d3 was mentioned for him to use. Ben C discussed he was working on the main page with the urls cart, checkout and the individual categories. Team discussed how URLs will look for the the item card and how it will be displayed. Ashley mentioned she is working on the presentation and the user manual. With the team then discussing the presentation and ow we will be presenting Shopimy, and the steps we need to take leading up to the presentation.
