Notes:

SPRINT FOUR REVIEW

Review Notes →

*Did we meet the goals we wanted to achieve?*

Our team is pleased with the work that we have done we have done this sprint. Specifically, the detailed item page has had progress on it, with the variations being a work in progress. Our team mentioned that it is in progress with being integrated with the backend., and the work done on the dynamic ability.

Retrospective Review →

*Did our approach to the scrum process satisfy everyone? Are we satisfied with the amount of meetings that we are holding per week, the amount of work we are doing per week, what we speak about during the meetings and the length of the meetings.*

The team discussed how our scrum process was handled over the last sprint and it was agreed upon that we are satisfied with how it has been going. Our team agreed that our meeting of three meetings a week is good and we are content with the content that is that is being covered in each of the meetings. additionally, we are happy with the length of the meetings and don't feel that they need to be longer.

*Are we implementing our tools in the best way and using them to effectively?*

Our team is happy with the use of our tools in regards to GitHub, we are satisfied with the how staging has become our default branch and the commits that are being displayed by it. our improvements with Jira are continuing as the team is getting used to updating the bard more.

*Comments the group would like to share on how they will be improving in the next sprint.*

General comments the group had about the group work being done is we can to accomplish more during a sprint,  we hope in the last couple sprints of to accomplish more and meet all requirements.

*Are there other thoughts that the group would like to add to to the review?*

The group was reminded there are two sprints or four weeks left in the project, and we discussed what should be prioritized during the next sprint in preparation for our final sprint. The team discussed the build your own store pages that a user has access to once they say they are going to start a store on shopimy.
